That's exactly what I planned to do, just making sure you knew, and checking to get any extra input.

Lou

I think I'd stick with the statement. You don't have a position because you're still collecting information on which to base a well informed decision. That's completely factual.

Good afternoon Board Members and Candidates,

I am reaching out to you this evening in regards to the rumored Moss 3/Landfill development project. The community is concerned that some statements from the Board of Supervisors and candidates for such regarding the landfill conflict each other, so our loosely organized community presently known as Stop the Moss 3 Landfill would like an answer from each of you regarding these two questions:

1. Are you supportive of a landfill being opened and/or operated by a private company within Russell County's borders?
2. If you are opposed to a private landfill within Russell County's borders, will you pledge to do everything within your (potential) powers to stop or delay a private landfill from operating within Russell County?

Please note that these responses will be published across various social media platforms and may be used in ad campaigns, advertisement material, or as otherwise deemed necessary by the Stop the Moss 3 Landfill project.

Please note that refusal to answer this question could be published across various social media platforms and may be used in ad campaigns, advertisement material, or as otherwise deemed necessary by the Stop the Moss 3 Landfill project.

Please note that any statement that claims that a public position on the landfill is equivalent to a vote could be challenged by any existing case law, Virginia Code and Robert's Rules as adopted by Russell County.

Thank you for your time and attention,

Brandi Hurley
