To: Lonzo Lester &lt;lonzo.lester@russellcountyva.us&gt;

We need to be dealing with the total tonnage hauled to Bluntnville, not just the convenience sites. The 18,500 tons per year number, etc. We can't get bogged down in detail, we need actual end of year costs for all trash and then just project those costs and any variances for the future years. Need to do this for each of our alternatives. 1) Host agreement not approved and they do not install the landfill 2) Host agreement not approved and they do install the landfill 3) Host agreement is approved and they install the landfill in accordance with Host agreement. We need to keep it simple for the public and show them the projected impact of each alternative for a) environmental, b) legal, and c) financial.

FYI.

We still need more data.
